

MESSAGE CHURCH

Christian Messages on the Web at www.messagechurch.com

Uganda

Over the years the Message Church website has been in operation we have received hits from all over the world. Most never went the extra step to contact us but of those that did some 80% were from Uganda in East Africa. Since then a small group of message ministers have continued exchanging emails we have been sending booklets on the message as there is a shortage. In November 2006 Richard Oliver travelled to Uganda to meet with them and try to see what we could do to help.

From the left, Joel, then a deacon from Charles church, Pastor Charles Basalirwa, Pastor Robert Kabasi, Mrs Kabasi with their two children and Brother Moses who was to be my interpreter.

There are Message Churches in some of the main centres supported by Voice of God but our assistance was required for the country churches away from Kampala, the capital and Jinja, the main industrial town situated at the source of the Nile.

This was the welcoming committee at Entebbe airport.
