

The Message Part 1

“As long as you're building the wall one straight way, it's all fine, the--the bricklayers can go right down the row. But when you have to turn the corner, that's where the time... And we're not building a wall; we're building a house, you see, so these turns has to come. They come in the age of Martin Luther, John Wesley, and the Pentecostal age; it's here again.”

William Branham preached those words at the beginning of his last full sermon on earth and it perfectly explains what the message is to do. Complete the house of God.

And that's why God sent a message, it is time to turn a corner, to complete the building of the house God wants to live in, His Church.

The message itself then has to so several things.
It has to call people from the direction they were building in
It has to show them the plan
It has to train and guide them as they start in the new direction
And it has lead them to a place where they become master builders, able to help others and guide them

Now to be a true Message of God it must not only be Bible based but it must fulfil Bible prophecy. “The Message” must be in the Bible. And the message must be vindicated. When ever God was to do something new there was a sign. For Abraham there was a light, a fire moving through the prepared sacrifice, for Moses it was a fire in a bush, for Gideon it was again fire on the sacrifice. Then there was Elijah who proved the God was real and Baal false. Baal's prophets found that he couldn't send fire to burn their sacrifice; but

the God of Abraham, Moses, and Gideon answered Elijah's prayer; fire came down from heaven. God had spoken to vindicate His prophet. Even Saul, soon to become Paul, on his way to Damascus to track down Christians met the pillar of fire.

The Bible warns that there will be many cults with many false leaders. They will operate rather like a secret society. Members have to be in a certain quiet, hidden, or remote place, like out in the desert or in a secret inner room. Any true message of God will be opposite to that, open and world wide. And there must also be a spiritual “pull” that will accompany the true message. Jesus put it this way, “No man can come to me, except the Father which hath sent me draw him.” So there will be a spiritual attraction involved.

To summarise so far:

The Message is:

- God's is God's instruction to turn a corner
- A revealing of the plan of God
- A training manual, a guide
- It will have God's signature of the Pillar of Fire
- It will be in the Bible
- It will fulfil the Bible prophecy
- It will have an attraction, a spiritual “pull”

But the Message is more than that.
